loans in this area. So they have come up with this bill which would segregate funds into two parts. The first part would retain 25 million of the original 35. And for the original purposes. The other 10 million would go for pollution abatement equipment. There are currently quite a few foundries in the state of Connecticut that are in needs of funds. In the neighborhood of 40 thousand to 200 thousand dollars. And unless they get these funds they will have to shut down. And this will just increase our unemployment. So I think this is a good bill. And I urge its passage.

THE CHAIR:

The question is on passage. Will you remark further? If not all those in favor of passage signify by saying aye. AYE. Opposed nay? The ayes have it. The bill is passed.

THE CLERK:

An Act Concerning Issuing Certificates of Registration to Sanitarians who were in the Armed Forces at the time of the New Requirements For Registration Were Passed.

THE CHAIR:

Senator Burke.

SENATOR BURKE:

Mr. President, this is an act concerning issuance of Certificate for Registration to Sanitarians who were in the Armed Forces at the time of the new requirement. For R^gistrations Were Passed. The purpose of the bill is to allow a Certificate of Registration without examination on the person qualified who was in the Armed Service during the time which Certificates were granted without examination. I urge its passage.

THE CHAIR:

Senator Burke. There appears to the Chair to be an extra word of in the Title of this bill. Has anyone else noticed that?

It appears most uncintactical. Perhaps my glasses are dirty. It appears that it means to see who were in the Armed Forces at the time the New Requirements for Registration were issued. And there is a totally unnecessary extra word of. Senator Burke does that so appear to you? I thought that we might perhaps check with the Commissioner's Office, and not put in unnecessary language. May we stand at ease a minute and I will examine the bill itself. An erroneous title would not be the worse thing we have ever done. The bill itself is correct.

SENATOR BURKE:

Thank you Mr. President.

THE CHAIR:

The question is on passage of the bill. Will you remark further? If not all those in favor of passage of the bill signify by saying aye. AYE. Opposed nay? The ayes have it. The bill is passed.

THE CHAIR:

Senator Buckley.

SENATOR BUCKLEY:

Mr. President, I move acceptance and passage.

THE CHAIR:

Will you remark?

SENATOR BUCKLEY

Mr. President, the savings and loan associations in Connecticut have a common pension plan. The bill would allow the people who are involved in their trade organization, the Savings and Loan League of Connecticut to join in the pension plan. And provides certain other technical changes.

interest to these people so I will not impose upon their time and I'm not sure that even Mr. Gallant is going to speak this morning, but as usual we will give the committee written reports on these very important bills explaining our reasons for supporting them. I'll comment on one or two bills which we think you should treat with a great deal of caution.

First of all the bills which we are supporting, HB-5418, 5631, 6059, 5332, 5333, 5423, 5326, 5329, 5330, 5331, 5332, 5334, 5420, 5421, 5422, 5850, 5906, SB-569, 410 and SB-575.

I do want to comment on HB-5570, which was introduced by Mr. Bonetti and while his heart was probably pure in some respects, as far as compensating the state employees for that additional work, I'm sure he was sincere in that, we are opposed to the principal of reversion. This bill, when it was passed was a progressive step and I realize there are people throughout the state that say, I work 40 hours so why should not the state employees work 40 hours. Our answer to that is that this is progressive legislation. Already there are movements in private organizations to have a 4 day work week, which indicates that progress is still being made.

The HB-5199 has serious implications, when you set limits to salaries it can lead to a lot of evils. I worked in a state that had such a system and it's a dangerous thing. I think the committee had better look at that one very seriously.

Mr. Bonetti's bill 5584, I understand that what was in his mind, and again we must be very careful of a thing like this because there are agencies which are short handed and you just cant say when a position is vacated that you are not to hire anybody. I do not believe he really had that in mind, it just sounds that way, and I think again some caution must be exercised in bills of that sort.

Mr. Bonetti:

My intent is if any department head could prove that this job is a necessity to be filled, then by all means fill it. Your other remark regarding my bill 5570, you said industry is considering a 4 day work week, now I'm sure you must mean a 4 day work week with 10 hours a day, which would amount to about 40 hours a week. I have not heard yet of anyone going on a 4 day work week with 6 hours a day.

Mr. Moore:

Mr. Bonetti, I think if you would pursue that further you would find that most of the industries, especially in New York, are working a 4 day week and not 40 hours
