of two years ago, the 1969 session, and they were supposed to construct garages at the time. This very simply changes the technicality and makes the parking facility instead of garages. The bonding money is already there.

THE CHAIR:

Remark further.

SENATOR CRAFTS:

Mr. President, members of the circle, I would oppose this bill in the interest of air pollution, economy. I believe that if there aren't now satisfactory parking facilities at the University of Connecticut, those administrators there who were concerned about this matter, could very well restrict the number of vehicles that are on the ground. Perhaps the students would be better off if they were riding bicycles. I would ask the circle to defeat this measure.

THE CHAIR:

Will you remark further, if not all those in favor of passage of the bill, signify by saying Aye. The Ayes have it. The bill is passed.

Rep. Truex continued: proportions in health insurance. Each of us has to ask ourselves right now whether we are ready to move ourselves, our company and our industry to be ready for it one day instead of having it legislated to use a plan promptly and effectively when it is adopted.

So I ask you merely to consider the concept behind this. Whether you feel that it would be a problem that your committee could take on in the interim to investigate all possibilities and to realize that it is one of the most logical and I think one of the simplest ways in helping to cut down the cost, the rising cost of health care.

There is in the billas you see no amount of money to carry out the provisions, because I had no idea how the interim committees will function; Whether there will be expense accounts or not. But if you are interested in this concept I will be most happy to come up with a figure of what might possibly be necessary to cover the cost of this bill. And I appreciate you willingness to listen to what I think is an extremely important area that we ought to get moving on and I hope that this will be one way that we can accomplish it.

Sen. Dinielli: Thank you very much. In answer to your statement on the cost I believe that this is referred to the Joint Standing Committee on Insurance, there wouldn't be anything to apply.

Rep. Truex: This is another reason why I think this is a good place to be positive, if we could do it because we would be covered without any additional appropriation. Thank you very much.

Senator Dinielli: Thank you. Is there anyone else who wishes to speak in favor of HB-8404? Is there anyone here opposed to this bill? Now we will hear testimony on HB-8509 AN ACT CONCERNING MINIMUM PROVISIONS IN AUTOMOBILE LIABILITY POLICIES. Anyone here in favor? Any opposed? We will now go back to the order as published in the bulletin, concerning real estate business. And before I, I'm sorry, HB-8481 is another insurance bill. Before we go on to real estate then we will pick up an act concerning THE DEFINITION OF DEPENDENTS UNDER GROUP HOSPITALIZATION INSURANCE POLICIES. That is HB-8481.
