THE CHAIR:

Senator Mondani.

SENATOR MONDANI:

Mr. President, I move acceptance of the Committee's Favorable Report and passage in concurrence with the House.

THE CHAIR:

Any remarks?

SENATOR MONDANI:

Mr. President, the Statute being repealed 10150 A has to do with the keeping of a Register. The register was instituted when average daily membership grants were based on a complicated formula. We have since changed that and this requirement is now no longer needed.

THE CHAIR:

Further remarks? If not the question is on the acceptance of the Committee's Favorable Report and passage of the bill. Those in favor indicate by saying aye. AYE. Opposed? The ayes have it. The bill is passed.

SENATOR MONDANI:

Mr. President, this bill changes the enumeration dates to put them in line with the Statute requirements when a child will attend school. The bill was recommended by the Department of Education and would make the census numeration more meaningful.

EDUCATION COMMITTEE

TUESDAY

FEBRUARY 9, 1971

Mr. McGavack: come up with the good things of both proposals.

Rep. Griswold: As the Committee may or may not know, Senator Hammer's and my bill HB5753 is much the proposal of the New Haven school board, with Mr. McGavack's helping on the suggestions.

Rep. DellaVecchia: Are there any further questions of Mr. McGavack?

Rep. LaGrotta: I just have a question that you can answer with one word. While I was at Washington, the president of General Dynamics informed me that we will never be able to support on a monetary basis training for all the skills and he spoke that eventually that as you proceed down this road that you're speaking to, that the business community will have to be drawn into this education and share part of the load. I want to ask you, if in this session we could put some money into this organization of having the business community participate to a greater degree than they have, would you think this would be a good idea? How would we do it, with co-ordinators?

Mr. McGavack: I think it would be very desirable. The only thing that I would say that the school system would have to provide, and it may be a re-ordering of the priorities on the use of individuals, that keep the program between the school and the business operational. You cannot expect the program in the business to operate here, and not have any contact with the school over here. And what maybe necessary, in fact I know would be necessary, is the individual that knows what's going on in the program here to be involved in what goes on here and the funds that would be necessary would be to support that kind of individual.

Rep. LaGrotta: And this wouldn't be as much as trying to duplicate the facilities?

Mr. McGavack: Yes, indeed.

Rep. LaGrotta: Thank you very much.

Rep. DellaVecchia: Any further questions? Thank you, Mr. McGavack.

In 1961, the state reimbursement was established at 12¢ per clock hour of attendance. There has been no increase since in this area. Adult education is as much a responsibility of the state as is elementary and secondary education. With passage of this bill, it is estimated that town reimbursement would be 28¢ per clock hour. This would be comparable to the state's share for public elementary and secondary education.

I urge you to support HB5748.

I have here a series of bills which are technical bills for the most part - Act Concerning reports to the State Board of Education, HB5745 which I would urge you to support. This bill removes the requirements for submitting post office addresses of individual teachers to the state board of education and at the same time will permit the board to collect information about personnel that may be pertinent under changing education and conditions. There are no costs associated with this bill and there will be savings in clerical time and effort at both the state and local level.

I urge you also to support HB5746, An Act Concerning Free Instructional Supplies, Materials and Equipment. Passage of this act will insure more adequately that children will be provided books, materials, supplies, and equipment necessary for their instruction. At this time some school systems require that children purchase some supplies, supplementary instructional materials, and similar items. Children unable to pay for such items either go without or are subject to a means test. Such practices are essentially contrary to the Constitution of the state which requires that "there shall always be free public elementary and secondary schools in the state" and that this principle "shall be implemented by appropriate legislation."

I like also to urge your support for Act Concerning Enumeration of Children, HB5753. Cities and towns need more adequate lead time in planning and organizing schools to accommodate incoming children. This act will establish the ages with reference to January 1 and have the enumeration take place in the Spring. An additional benefit will be provided most communities who also use January 1 to establish ages of incoming children, since a source of confusion to parents will be eliminated.

Also urge your support HB5750 another bill which does not involve any appropriation. This is An Act Concerning School Registers. Since the need for keeping school registers to determine average daily membership was eliminated by the 1969 General Assembly, the provisions of Section 10-150a of the statutes needs to be repealed. With such repeal the definitions and procedures for establishing average daily membership will be in harmony with the ADM act. All teachers who are present, or former teachers, can now cheer.
