who are absolutely terrified of their next door neighbor and I have heard from people who manage public housing complexes who say the law definitely limits their ability to evict these tenants.

Mr. Speaker, this amendment will make a major change in how we protect single, particularly single, frail, elderly women from the onslaught of drugs, prostitution and other illegal activities that go in public housing and I ask the Chamber's support.

REP. AMANN: (118TH)

Mr. Speaker, what this amendment does is for the HMO industry it's part of a national committee, Quality Insurance. That organization requests all the data for consumer report card which if you remember our managed care bill last year that I worked on that section of the bill, again on the quality of the care such as how many caesareans are done, how many deliveries, etc. It is filed on a yearly basis on July 15th.

Basically what the amendment does is it allows the industry to file at the same time as they do nationally, but the most important part of the amendment that it will not delay the report or reporting schedule for the fall of '98.

And I again move for its adoption.

SPEAKER RITTER:

The question is on adoption of House "B". Will you remark further on the adoption of House "B"? If not, I will try your minds.

All in favor, signify by saying aye.

REPRESENTATIVES:

Aye.

Opposed, no. House "B" is adopted.
